## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: There is prior art regarding multi chip modules comprising first and second chips having chip bonding regions. See, for example, US6150724 to Wenzel et al. wherein all the above is disclosed.

The application as amended specifically recites chip connection portion arranged on the second and first chips and wherein the chip connection portions on the first chip are arranged on opposite sides with a specific distance shorter than a distance between the opposite side pads/portions, and wherein at least a part of the chip connection portions on the first chip are common to the plurality of types of chips so as to be used for I/O of signals having identical specifications. The above in combination with all other specific language recited in the claims makes up for a structure that is neither obvious over nor anticipated by the prior art of record, which fails to either alone or in combination disclose the claimed device. Therefore, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lourdes C. Cruz whose telephone number is 703-306-5691. The examiner can normally be reached on M-F 10-6:30.
